**Building a Culture of Health, County by County** 

# 2017 County Health Rankings Colorado

# INTRODUCTION

The County Health Rankings & Roadmaps program brings actionable data and strategies to communities to make it easier for people to be healthy in their homes, schools, workplaces, and neighborhoods. Ranking the health of nearly every county in the nation, the County Health Rankings illustrate what we know when it comes to what is making people sick or healthy. The Roadmaps show what we can do to create healthier places to live, learn, work, and play. The Robert Wood Johnson Foundation (RWJF) collaborates with the University of Wisconsin Population Health Institute (UWPHI) to bring this program to cities, counties, and states across the nation.

# WHAT ARE THE COUNTY HEALTH RANKINGS?

Published online at **countyhealthrankings.org**, the *Rankings* help counties understand what influences how

healthy residents are and how long they will live. The Rankings are unique in their ability to measure the current overall health of nearly every county in all 50 states. They also look at a variety of measures that affect the future health of communities, such as high school graduation rates, access to healthy foods, rates of smoking, obesity, and teen births. Communities use the *Rankings* to help identify issues and opportunities for local health improvement, as well as to garner support for initiatives among government agencies, healthcare providers, community organizations, business leaders, policy makers, and the public.

# DIGGING DEEPER INTO HEALTH DATA

Although we know that a range of factors are important for good health, every state has communities that lack both opportunities to shape good

health and strong policies to promote health for everyone. Some counties lag far behind others in how well and how long people live – which we refer to as a "health gap." Find out what's driving health differences across your state and what can be done to close those gaps. Visit countyhealthrankings.org/reports.

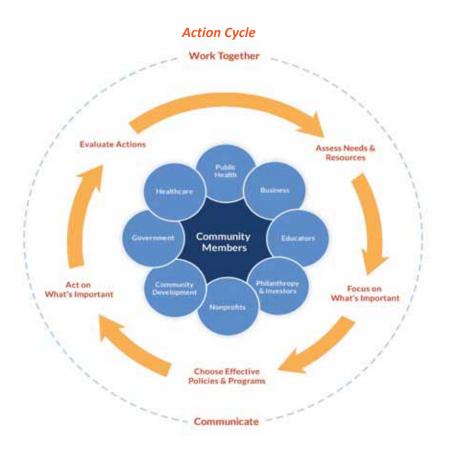

To further explore health gaps and other data sources in your community, check out the feature to <u>find</u> <u>more data</u> for your state and <u>dig deeper</u> on differences in health factors by geography or by population subgroups. Visit <u>countyhealthrankings.org/using-the-rankings-data</u>.

# MOVING FROM DATA TO ACTION

Roadmaps to Health help communities bring people together to look at the many factors that influence health and opportunities to reduce health gaps, select strategies that can improve health for all, and make changes that will have a lasting impact. The Roadmaps focus on helping communities move from awareness about their county's ranking to actions designed to improve everyone's health. The Roadmaps to Health Action Center is a one-stop shop of information to help any community member or leader who wants to improve their community's health by addressing factors that we know influence health, such as education, income, and community safety.

# Within the Action Center you will find:

- Online step-by-step guidance and tools to move through the **Action Cycle**
- What Works for Health a searchable database of evidence-informed policies and programs that can improve health
- Webinars featuring local community members who share their tips on how to build a healthier community
- Community coaches, located across the nation, who provide customized consultation to local leaders who request guidance in how to accelerate their efforts to improve health. You can contact a coach by activating the Get Help button at countyhealthrankings.org

# **HOW CAN YOU GET INVOLVED?**

You might want to contact your local affiliate of United Way Worldwide, the National Association of Counties, Local Initiatives Support Corporation (LISC), or Neighborworks-their national parent organizations have partnered with us to raise awareness and stimulate action to improve health in their local members' communities. By connecting with other leaders interested in improving health, you can make a difference in your community. In communities large and small, people from all walks of life are taking ownership and action to improve health. Visit countyhealthrankings.org to get ideas and guidance on how you can take action in your community. Working with others, you can improve the health of your community.

# **HOW DO COUNTIES RANK FOR HEALTH OUTCOMES?**

Rank 1-14

Rank 15-29

The green map below shows the distribution of Colorado's **health outcomes**, based on an equal weighting of length and quality of life.

Lighter shades indicate better performance in the respective summary rankings. Detailed information on the underlying measures is available at **countyhealthrankings.org**.

Rank 30-44

■ Rank 45-58

# 2017 COUNTY HEALTH RANKINGS: MEASURES AND NATIONAL/STATE RESULTS

Measure	Description	US Median	State Overall	State	State Maximum
HEALTH OUTCOMES	Description	Wicalan	Overall	William	WIGAIIIGIII
Premature death	Years of potential life lost before age 75 per 100,000 population	7,700	5,700	3,300	10,500
Poor or fair health					
	% of adults reporting fair or poor health	16%	14%	8%	23%
Poor physical health days	Average # of physically unhealthy days reported in past 30 days	3.8	3.5	2.2	4.5
Poor mental health days	Average # of mentally unhealthy days reported in past 30 days	3.8 8%	3.5	2.8 5%	4.0
Low birthweight	% of live births with low birthweight (< 2500 grams)	870	9%	5%	15%
HEALTH FACTORS					
HEALTH BEHAVIORS	0/ of adulta who are assument and also	170/	1.00/	1.00/	220/
Adult smoking	% of adults who are current smokers	17%	16%	10%	23%
Adult obesity	% of adults that report a BMI ≥ 30	31%	20%	12%	28%
Food environment index	Index of factors that contribute to a healthy food environment, (0-10)	7.3	7.7	2.7	8.9
Physical inactivity	% of adults aged 20 and over reporting no leisure-time physical activity	26%	14%	8%	25%
Access to exercise opportunities	% of population with adequate access to locations for physical activity	62%	91%	1%	100%
Excessive drinking	% of adults reporting binge or heavy drinking	17%	19%	12%	24%
Alcohol-impaired driving deaths	% of driving deaths with alcohol involvement	30%	35%	0%	83%
Sexually transmitted infections	# of newly diagnosed chlamydia cases per 100,000 population	294.8	415.0	83.3	911.3
Teen births	# of births per 1,000 female population ages 15-19	38	30	6	61
CLINICAL CARE					
Uninsured	% of population under age 65 without health insurance	14%	12%	5%	22%
Primary care physicians	Ratio of population to primary care physicians	2,030:1	1,240:1	1,980:0	750:1
Dentists	Ratio of population to dentists	2,570:1	1,340:1	3,580:0	670:1
Mental health providers	Ratio of population to mental health providers	1,105:1	350:1	8,130:1	70:1
Preventable hospital stays	# of hospital stays for ambulatory-care sensitive conditions per 1,000 Medicare enrollees	56	32	12	78
Diabetes monitoring	% of diabetic Medicare enrollees ages 65-75 that receive HbA1c monitoring	86%	84%	60%	95%
Mammography screening	% of female Medicare enrollees ages 67-69 that receive mammography screening	61%	60%	33%	71%
SOCIAL AND ECONOMIC FACTORS	5				
High school graduation	% of ninth-grade cohort that graduates in four years	88%	77%	40%	98%
Some college	% of adults ages 25-44 with some post-secondary education	57%	71%	22%	87%
Unemployment	% of population aged 16 and older unemployed but seeking work	5.3%	3.9%	2.1%	7.7%
Children in poverty	% of children under age 18 in poverty	22%	15%	3%	49%
Income inequality	Ratio of household income at the 80th percentile to income at the 20th percentile	4.4	4.5	3.3	6.1
Children in single-parent	% of children that live in a household headed by a single parent	32%	28%	14%	51%
households	, , ,				
Social associations	# of membership associations per 10,000 population	12.6	8.8	4.7	29.8
Violent crime	# of reported violent crime offenses per 100,000 population	198	309	22	617
Injury deaths	# of deaths due to injury per 100,000 population	77	72	44	143
PHYSICAL ENVIRONMENT					
Air pollution – particulate matter	Average daily density of fine particulate matter in micrograms per cubic meter (PM2.5)	9.2	5.4	4.3	9.2
Drinking water violations	Indicator of the presence of health-related drinking water violations.  Yes - indicates the presence of a violation, No - indicates no violation.	NA	NA	No	Yes
Severe housing problems	% of households with overcrowding, high housing costs, or lack of kitchen or plumbing facilities	14%	17%	8%	27%
Driving alone to work	% of workforce that drives alone to work	81%	75%	44%	80%
Long commute – driving alone	Among workers who commute in their car alone, % commuting > 30 minutes	30%	33%	9%	71%
